

## Union Vessel Logbooks (Deck Logs) Digitized on National Archives Website

U.S. Navy logbooks (or deck logs) for Civil War vessels are located in Record Group 24: Records of the Bureau of Navy Personnel, 1798—2007, Series: Logbooks of U.S. Navy Ships, 1801—1940. Digitization of these records is ongoing at the National Archives. The following is a list of logbooks with active links to those records that are presently available on the National Archives website, which can be challenging to locate using the site's search engine. The list was compiled by Karen Needles, Founder and Head of the Lincoln Archives Digital Project ([lincolnarchives.org](http://lincolnarchives.org)) and is provided for the benefit of *Civil War Navy—the Magazine* ([civilwarnavy.com](http://civilwarnavy.com)) subscribers and Civil War naval researchers. As additional digitized records are available or if you know of others on the National Archives website not noted here, please contact Gary McQuarrie, Managing Editor at [gary@civilwarnavy.com](mailto:gary@civilwarnavy.com) so that we might update the resource. The resource will be posted on the magazine's website under Resources/Downloads.
